**MESSAGE**

From distant rural farms to urban centers, the journey of Farm Produce through an efficient and quality food supply chain infrastructure is key to India's Food Security. To build this infrastructure, we need the cooperation of professionals and experts of this sector for better solutions.

I am happy to note that ISHRAE (Indian Society of Heating, Refrigerating and Air conditioning engineers) & Nurnberg Messe as Co-organizer have come up with the show focusing on Refrigeration & Cold Chain 'REFCOLD INDIA' to be held during 22nd – 24th November, 2018 in Gandhinagar, Gujarat. This is being supported by NCCD and International Institute of Refrigeration (IIR-Paris) & should witness unprecedented participation from all stakeholders of this sector.

I extend my congratulations to ISHRAE for organizing REFCOLD INDIA 2018 and my best wishes for all the success of the event.

  
(Anil Kumar Jain)
