Message

When I got the knowledge about REFCOLD INDIA being hosted in Gujarat, I was very much pleased to embark my best wishes. Being a Union Minister for Road Transport and Highways, Shipping, Chemicals and Fertilizers, I have been very much in accordance with the Refrigeration and Cold Chain Industry. By having this technology of being able to conserve things and much more for a longer duration and eventually see increase in Productivity, Mobility and Trading gives us a clear picture of the visionaries of tomorrow.

I encourage and support ISHRAE for initiating REFCOLD in Gujarat with an insurmountable power and zeal to pursue something different. Food Chain and Refrigeration Industry are focusing on increasing Trades, Exports and gradually increasing the GDP of The Nation. This shows the power of futuristic projections come to life.

I convey my best and enthusiastic wishes to The Indian Society of Heating, Refrigerating and Air Conditioning Engineers (ISHRAE) and NurnBergMesse for foreseeing and organizing 'REFCOLD INDIA 2018' to be held during 22nd- 24th November, 2018, at Mahatma Mandir Convention cum Exhibition Centre, Gandhinagar, Gujarat. May you people Leap, Fly and Achieve success at India's First-Ever show focusing on Cold Storage, Industrial Refrigeration & Mobile Refrigeration.

(Mansukh Mandaviya)

Mr. C Subramaniam

President,

The Indian Society of Heating, Refrigerating and Air Conditioning Engineers (ISHRAE),
Ahmedabad Chapter
