Sardar Bhavan, Sachivalaya,  
Gandhinagar-382010

Date : 22.10.2018

## Message

With increasing road and transport facilities and a concurrent boost in the various other sectors, India as well as Gujarat has been proving to be powerful since past few years. In the momentum of continuous development is where I believe real change happens; be it healthcare sector, industrial sector, agricultural sector or finance sector. Bright future of these sectors can't be predicted if there are no necessary tools and facilities available. As far as we talk about healthcare sector -- especially pharmaceuticals and the agricultural sector, it is all about producing and storing them, keeping in mind their longevity. India has been constantly motivating Cold Chain and Refrigeration Industry for the benefit of the country's export.

One such motivation has taken a shape and form with the name of REFCOLD India. This initiative has impressed me for it is India's very first Cold Chain and Refrigeration Exhibition taking place at Gandhinagar, Gujarat. I congratulate ISHRAE – Indian Society of Heating, Refrigerating & Air Conditioning Engineers and their entire team for making it happen. ISHRAE's valuable researches and their quality of education in the field of heating, refrigeration and air conditioning are impeccable. I also impart my best wishes to Co-Organizer Nurnberg Messe and Co-Reach partner GoBananas for taking up this huge responsibility of putting forward an important expo in the history of India.

REFCOLD Business Summit and REFCOLD Innovation Hub will be like a breath of fresh air for all the industrialists. I am on the edge, waiting to witness transformation on 22nd, 23rd and 24th November, 2018. Good luck and best wishes.

  
(Nitin Patel)

To,

✓ **Mr. C Subramaniam,**

President, The Indian Society of Heating, Refrigerating and Air Conditioning Engineers (ISHRAE),  
Ahmedabad Chapter, 204, Sarita Complex, Behind Samudra Complex,
