MESSAGE

The journey of farm produce through an efficient & quality food supply infrastructure is key to India's Food Security for its more than one Billion Citizens. To build this infrastructure, enabling farm-to-market transactions, the present government has taken several initiatives and introduced a number of beneficial schemes.

I am glad to know that REFCOLD India – with an inclusive focus on Post Cultivation, Transportation, Processing and Storage is organizing such a magnanimous event to link the food value chain through refrigeration and cold chain development for the growth of agriculture, dairy, fishery, health, pharma and processed food sectors.

I congratulate ISHRAE 'The Indian Society of Heating, Refrigerating and Air Conditioning Engineers' and extend my best wishes to them alongside Gobananas as Co-Reach Partner & NurnBergMesse as Co-Organizer, for conceiving and organizing "REFCOLD INDIA 2018" - country's First International Exhibition & Conference on Cold-chain, Industrial Refrigeration & Reefer Transportation, to be held during 22nd - 24th November, 2018, at Mahatma Mandir Convention cum Exhibition Centre, Gandhinagar, Gujarat.

(R C Faldu)

To,
Mr. C Subramaniam
President,
The Indian Society of Heating, Refrigerating and Air Conditioning Engineers (ISHRAE)
